We are proud to present the first newsletter of Mirjam Polman Fine-Art!

In this time of COVID-19 and (local lockdowns) there are just few opportunities to stay in touch with each other, to show new products, or to share ideas with you. This newsletter does offer this possibility, so that you can be a little bit on La Gomera from home.

Don't be afraid, I will not weekly fill your mailbox with newsletters! The plan is to update you six times a year and I hope you appreciate this. If you don't want this, unsubscribing is easy: at the bottom of the newsletter you will find my email - you will not receive the next newsletter.

A little shop!

Since July 2020 we have a shop in the center of San Sebastian! You will find the shop right in the center, on the edge of the large square where the beautiful tall trees ("Laureles de Indias") provide cooling shade. If you're in La Gomera, come to San Sebastian for a day, walk into the history of Columbus' stay here, and have a coffee on the terrace in the center of the square - I'm sure you

will see my shop, too.

You are always welcome and .. you can see me, (Mirjam) there at work!

Special, and only in this newsletter!

Although the world sometimes seems to have come completely still, our creativity is running! Beautiful ideas are worked out in our studio. There tryouts, experiments with materials and colors ... the result is promising! It is not something for on the wall, but is a reminder of La Gomera in a completely different way. It will soon be available in my store and online...

So keep an eye on the newsletter!

The market in Valle Gran Rey

From January 2021, the market in Valle Gran Rey will also be open again on Sundays and you can find Mirjam Polman Fine-Art, and the sweet decorations of Beach-Art there again. Please note, masks are mandatory in public all over La Gomera, including on the market. The market has started again with a security guard to supervise this. Almost everyone has a new place and although the number of visitors cannot be compared with previous years in the winter season, the atmosphere is as usual!

On the road in your own region

Are you not allowed to travel to La Gomera, but in your own country? And do you want to do something fun that clears your mind from worries? Search for Sea-Glass yourself! It's not as easy to find as shells, but the tips below are a good start!

1. Just before the deepest point of low tide, is the best time to search. the whole shore is yours for a long time.
2. Go to a "dirty" beach, away from beach bars and cleaned beaches
3. Walk about a meter along the tide line, but ...
4. Don't just walk in a straight line and ...
5. Preferably with the sun in your back
6. Don't look too close to your feet, not too tightly down. A few meters before your feet is better
7. Focus on shell banks and messy bits on the beach
8. Walk slowly and have patience, it takes time to train your eyes for this!
